PROFESSIONAL SUMMARY

Hands-on Senior Full Stack Developer with **11+ years** of experience building scalable enterprise applications and microservices, while **mentoring team members** and coordinating a team of developers and testers and delivery with India, US, and Sweden stakeholders. Expert in **Java 17, Spring Boot, Angular 17+, Microservices, REST APIs, Kafka, PostgreSQL**, with hands-on **Azure, Docker, Kubernetes, Helm, and GitLab CI/CD** experience. Proven track record of automating processes, integrating AI tools such as **Glean and RAI chatbot**, and delivering secure, high-quality software in Agile environments.

KEY ACHIEVEMENTS

- Reduced manual compliance tracking effort by **~50%** by architecting a cloud-native security platform at Ericsson.
- Cut operational costs by **~25%** through reporting automation and third-party integrations for a loan system used by **5,000+ field employees**.
- **Coordinated and mentored a team of 4** (3 developers, 1 tester) while remaining hands-on in development; managed delivery with the Sweden client team and India–US stakeholders.
- Recognized with **Ericsson All Stars Award** and **Outstanding Performance Awards (Gold, Platinum)** for SART, CCMS, and POA delivery.

TECHNICAL SKILLS

Languages: Java 17, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks: Spring Boot, Spring Security, Spring MVC, AOP, Hibernate, JPA, EJB, Microservices, Angular 17+, JSF, RxJS, Bootstrap, AG-Grid

Cloud & DevOps: Microsoft Azure, Docker, Kubernetes, Helm, GitLab CI/CD, Maven, Git, Jira, IntelliJ IDEA, VS Code, Linux, Apache Tomcat, JBoss, Swagger, Apache POI, Power BI

Databases & Messaging: PostgreSQL, MySQL, SQL Server, Redis, Apache Kafka, RabbitMQ

Leadership & Delivery: Team Mentoring, Team Coordination, Sprint Planning, Stakeholder Management, Requirement Analysis, Code Reviews, Agile/Scrum

Testing & AI Tools: JUnit, Mockito, AI-assisted Development (Amazon Q, Codium, ChatGPT)

WORK EXPERIENCE

Ericsson India Pvt. Ltd., Gurugram — July 2021 – Present

SART – Security Assurance & Reporting Tool | *Full Stack Developer / Team Coordinator*

- Architected a cloud-native, **microservices-based** security compliance platform on **Azure** covering the project lifecycle from pre-sales to deployment, reducing manual tracking effort by **~50%**.
- Automated Salesforce and Global Chronos synchronization (Opportunity Numbers, FAS IDs) and scheduled L-RA data retrieval from SharePoint.
- Designed multi-repository mapping under a single FAS ID, enabling repository-level vulnerability and scan dashboards with live BCSS pipeline compliance and SRM status.
- Implemented L-RA and SRM workflows with report creation, editing, export, role-based visibility, opt-in/opt-out justification, and dynamic form validation.
- Built event-driven flows using Spring Cloud Data Flow and containerized **microservices**; maintained GitLab CI/CD pipelines for automated build, test, and deployment.
- Developed microservices with **Java 17, Spring Boot, PostgreSQL, and Angular 20** (EDS components); deployed on **Azure** using Docker and Kubernetes.
- **Coordinated technical delivery** across India–US stakeholders: clarified requirements, ran regular meetings, and resolved blockers to keep delivery on track.

SART – AI / Glean Integration | *Mar 2026 – Present*

- Integrated Glean-powered enterprise search with secure authentication, API integration, and an MCP-based architecture for AI tooling.

SART – RAI Chatbot | *Mar 2026 – Present*

- Integrated the RAI chatbot across backend and frontend services, enabling real-time streaming responses.

CCMS – Extended Team Collaboration with Sweden | *Full Stack Developer / Team Coordinator*

- **Coordinated and mentored a team of 4** (3 developers, 1 tester), managing delivery, sprint schedules, requirements, and communication with the Sweden client team.
- Architected a Spring Boot microservice with Spring Security and AOP, using **Kafka** for asynchronous, fault-tolerant inter-service communication.
- Developed REST APIs with JPA/Hibernate and Angular features: reusable components, reactive forms, interceptors, service layers, state management, and dynamic UI screens.
- Managed deployments with Docker, Kubernetes, and Helm; participated in Agile ceremonies and code reviews using Git and Jira.

Tech Stack: Java 17, Spring Boot, Microservices, Angular 20, PostgreSQL, Kafka, Spring Cloud Data Flow, Azure, Docker, Kubernetes, Helm, GitLab CI/CD, Salesforce, SharePoint

SCNL, Gurugram — June 2019 – July 2021

Loan Management System (LMS) / TARASHNA (TSL) | *Senior Software Engineer*

- Integrated Web Services for online/offline communication, improving system accessibility for **5,000+ field employees**.
- Built core modules: Group Loan Application, Loan Card, PAR, Death Report, and Cashbook.
- Automated reporting and integrated third-party services (PAN Card validation, IDFC/RBL/IBL disbursements), reducing operational costs by **~25%**.

Tech Stack: Java, Web Services, REST APIs, MySQL, JSON, XML

PeopleStrong, Gurugram — May 2016 – June 2019

AltWorklife / AltRecruit | *Software Engineer*

- Developed core HR modules for ALTRecruit and ALTWorklife: Leave Management, Timesheet, Attendance, Payroll, and Onboarding.
- Built a responsive Angular recruitment portal with applicant tracking and approval workflows; simplified HR processes with intuitive interfaces.

Tech Stack: Java, JSF, RESTful Web Services, Redis, SQL Server, Angular 2, HTML5, CSS3

Rhythmus Technology, Gurugram — Aug 2015 – May 2016

DemoGo – Marketing & Audio-Conferencing System | *Java Developer*

- Developed a scalable audio-conferencing architecture with scheduling and management features, using POJO classes in Business and DAO layers.

Tech Stack: Java, Struts2, JavaScript, Ajax, JSON, HTML5, CSS3, SQL Server 2014

EDUCATION

MCA (Master of Computer Applications) – Roorkee Institute of Technology, Roorkee — **2011 – 2014**

BCA (Bachelor of Computer Applications) – Maharishi Dayanand University, Rohtak — **2007 – 2010**

CERTIFICATIONS

Java SE 8 Programmer I (1Z0-808) • Java SE 8 Programmer II (1Z0-809) • SAFe Practitioner • Angular 11 (Vskills) • MySQL DB Administration (Vskills)

AWARDS

- **Outstanding Performance (Platinum) – POA:** Impactful POA delivery and process automation.
- **Outstanding Performance (Gold) – SART:** Excellence in SART project delivery and execution.
- **Ericsson All Stars Award (Cash Bonus):** CCMS performance award for outstanding contribution.
